It was the first famous, center-based table created. Ironically, its design allows the chairs around it to tell their own story.

Clean, elegant and iconic tables with tops made of marble, glass or liquid laminate.

Saarinen

BY EERO SAARINEN

Saarinen comes in a wide range of sizes, with a stone, liquid laminate or glass tops.

Frame:

Saarinen base is made from cast aluminum, painted with an epoxy coat in white or black. Custom colors available on special order at an upcharge. Ten piece minimum. Please call for details.

Tops available in White Carrara, Black Marquinia, Calacatta or Arabescato marble.

All stone tops are natural marble, NOT polyester coated. GI does not offer this option as experience has found it unreliable.

Custom stone specification available. Call for quotation assistance.

Maintenance: marble is a porous material. We do not seal our stone tops because most installations perform routine maintenance and cleaning, which removes the sealant. Regular application of a protective sealant is recommended.

Custom tops available with wood veneers or laminates on special request and offered with 'liquid laminate surface or glass top surface. See ensuing pages for details.

Marble options:

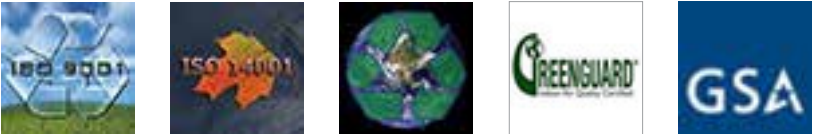

Saarinen is available in White Carrara, Black Marquinia, Calacatta and Arabescato are standard. Custom stone solutions available on request.

Environmental Considerations:

Calculus is produced in compliance with ISO 9001 and 14001 standards, recyclable after use and has been fully certified by Greenguard.

At Gordon we strive to incorporate best practices with regard to environmental sustainability. We encourage clients to reference our sustainability overview at: www.gordonisgood.com/sustainability.

Marble Pricing:

Standard marble options are White Carrara, Black Marquinia, Calacatta, Arabescato Cervaiole, Arebescato Vagli, Emperador or Verde Guatamala. All marble sourced in Italy.
